Dear Mr. Yox:

On December 31, 2019, the U.S. Nuclear Regulatory Commission (NRC) completed an inspection at Vogtle Electric Generating Plant, Units 3 & 4. The enclosed inspection report documents the inspection results, which the inspectors discussed on January 16, 2020 with Mr. M. Page and Mr. P. Martino, Vogtle 3&4 Plant Managers, and other licensee and contractor staff members.

The inspection examined a sample of construction activities conducted under your Combined License (COL) as it relates to safety and compliance with the Commission's rules and regulations and with the conditions of these documents. The inspectors reviewed selected procedures and records, observed activities, and interviewed personnel.

Based on the results of this inspection, no findings of significance were identified.
